New Ownership and Grand Opening to Bring Smiles to Community

Dr. Ntasha Sethi's journey in dentistry began in her home country of India, where her passion for dental care led her to enroll in dental school at the young age of 18. She dedicated five years to earning her Bachelor's in Dental Sciences, followed by an intensive three-year residency program from 2009 to 2012. This rigorous training equipped her with the skills and knowledge to become a board-certified Pediatric Dentist in India.

In 2013, driven by a desire to expand her horizons and embrace new challenges, Dr. Sethi relocated to the United States. She was accepted into the University of Pittsburgh School of Dental Medicine, where she completed her Doctor of Dental Medicine (D.M.D.) degree. Upon her graduation in 2017, she embarked on her professional career in pediatric dentistry, quickly establishing herself as a compassionate and skilled practitioner.

Since her graduation, she has worked in several pediatric practices where she applied her extensive training to provide quality care in a gentle manner. She was an associate for Dentistry for Children and Teens in Ohio for over 5 years before deciding to take ownership of the Beaver, PA office. Her bubbly personality and kind demeanor have won the hearts of our patients in Ohio. Her goal in life is to eliminate the phrase "I hate going to the dentist" by providing kids only positive experiences with dentistry.

Dr. Ntasha Sethi sought assistance from the Duquesne University Small Business Development Center to evaluate a dental practice. Through their guidance, she successfully acquired the business and has now joyously celebrated its grand opening, marking a significant milestone in her journey to serve the community with exceptional dental care, fulfilling her mission one smile at a time.
